

ASCENSION WISCONSIN

FOUNDATION

ANNUAL REPORT JULY 1, 2021 TO JUNE 30, 2022

**THANK
YOU!**

In Fiscal Year 2022, we invested **\$6,014,602** into Ascension hospitals, clinics and programs in the Greater Milwaukee area thanks to donors like you. Your support enhances the quality of Ascension healthcare services and programs in our Milwaukee communities.

**HELPING
THOSE WHO
ARE MOST
VULNERABLE**

Compassionate, personalized care extends much further than the four walls of our care sites. Ascension Wisconsin providers are reaching our most vulnerable patients in unique ways through community clinics and programs.

This lifesaving care is made possible by generous, local donors to Ascension Wisconsin Foundation. In Fiscal Year 2022, we invested \$1,462,654 back into our community services and clinics. Because of donors like you, patients like

Martha were able to receive lifesaving care that she couldn't find elsewhere.

"The Angel of Hope Clinic was 1,000% better than where I had been going," Martha said. "The staff here are so attentive and helpful. They really helped me navigate a plan of care and I finally received a proper diagnosis that I truly feel has saved my life." *(Continued >)*

ASCENSION WISCONSIN FOUNDATION

ANNUAL REPORT JULY 1, 2021 TO JUNE 30, 2022

At Ascension Angel of Hope Clinic, family medicine doctors and advanced practice nurse practitioners provide compassionate, personalized primary care and address areas such as disease management. Angel of Hope providers took away Martha's pain and made her feel whole again.

Martha's care, and the care of so many others, was made possible by you —

our donors. Because of you, patients like Martha can live pain free without worrying about when, where and how she will receive personalized, compassionate care.

"God bless [the donors]," Martha said. "I am so thankful for these services that helped me and my family, right in our community."

Amount invested into our community services and clinics.

\$1,462,654

"The staff here are so attentive and helpful They really helped me navigate a plan of care and I finally received a proper diagnosis that I truly feel has saved my life."
