

You Save Lives at Ascension St. Ben's Clinic

Your support lets you “be there” at St. Ben's, to bring care to vulnerable people right where they are.

“Our patients are so grateful for the clinic. To be able to talk to us. To call us their friend,” a clinic nurse says.

Homeless people who need basic healthcare go to St. Ben's -- where they receive professional and compassionate care that saves lives. Care they can't get anywhere else in Milwaukee.

You Save Lives at St. Ben's Clinic.

You protect the community -- during the pandemic, you helped limit the spread of the novel coronavirus on our streets and in shelters.

Support of the clinic delivers much-needed primary healthcare, case management, and social work services to homeless patients.

With your support, the clinic has started telemedicine service in two shelters -- so clients can consult virtually with a caregiver.

Your Gift Saves Lives

Hundreds in need of healthcare rely on your compassion.

With your support, people around Milwaukee in shelters and at the clinic are receiving the COVID-19 vaccine.

The clinic, in St. Anthony Place downtown, is the only healthcare clinic devoted full time to Milwaukee's homeless.

In 2020-2021, your support of St. Ben's brought

- Healthcare to over 500 people
- 4,800 healthcare services
- Vaccines provided in the clinic and shelters to eliminate the spread of COVID-19 and seasonal flu
- Protection for the most vulnerable in Milwaukee
