RISE AGAINST CANCER

Ascension Wisconsin is creating the first comprehensive high-risk, early detection cancer prevention program in the state – to prevent cancers through lifestyle changes, provide early detection and treatment and reduce the burden of cancer in our communities.

Your support. Our leading preventive care.

Cancer is the leading cause of death in Wisconsin, where cancer rates are higher than national rates. Early detection and treatment improves the probability of more cancer patients becoming cancer survivors.

At **Ascension St. Elizabeth Hospital's Cancer Center**, our specific program includes:

- Recruit & Maintain High-Risk Cancer Team **\$848,613**
- Invest in Technology **\$226,918**
- Patient Experience **\$96,745**

Working together, with donors and sponsors like you, Ascension St. Elizabeth Hospital, Ascension Calumet Hospital and the Ascension Medical Group clinics provide exceptional, personalized and compassionate care to all people.

Together, investing in the health of our communities.

We are in this together.

The Rise Against Cancer Campaign supports the Ascension St. Elizabeth Hospital's Cancer Center programs and treatment, **providing the kind of care we want for those close to us** and keeping them healthy in their fight against cancer. The care that prevents them from becoming another cancer statistic.

It is the kind of care that you would want for yourself or your family.
The kind of care we all deserve.

"My cancer team has been so important in my journey because it is so difficult for anyone without a cancer diagnosis to understand how you feel." Maria Nelson, cancer survivor, pictured above.

When you support Rise Against Cancer, you're helping people whose lives have been touched by cancer—family and friends, perhaps even you.
